Prepaid Electricity in Houston Texas

For Houston residents, whether you live in a large city or small town, we can save you money! We work with principal utilities throughout the state to provide no deposit electricity throughout Houston:

Most importantly, we make it easy to obtain cheap electricity in Houston, Texas for your home or business, regardless of your credit history or income level. In just a few simple steps, you can obtain reliable electric service, lower your electric bill, and increase energy efficiency for your home or business in Texas. Our bilingual customer service representatives will carefully explain our electricity plans and answer your questions. YES, there is a better way to obtain electric service in Texas!

What are my benefits:

- No deposit*
- Standard connection typically within 2-3 business days
- Same day/next day priority connection available for a nominal fee
- Low monthly rates and rates per kilowatt hour
- Daily balance notifications via text and/or email
- No credit check or ID needed
- No long-term contract or early cancellation penalty
- Flexible payment options
- NO ESTIMATES when billed. You will be billed 2 days in arrears for the actual energy your home consumed.
